

Welcome

Welcome Parents and Caregivers,

We, at Enoggera State School, welcome you and your family into our community. Your child/ren will become active participants in their own learning whilst in a caring environment that supports individual differences. Our community espouses the values of: Courtesy, Consideration, Cooperation, Communication and Common Sense. Open communication between home and school is integral to the development of these values in all children. All staff at Enoggera State School are highly professional people who are dedicated to the ongoing success in all areas of your child's development. Staff are continually involved in opportunities to reflect upon, and extend, their own professional knowledge and practice. The school's history extends beyond 135 years, and is testimony to the long-standing support afforded to the school by members of the community, both past and present. Our Parents & Citizens Association actively maintains and extends the facilities and resources accessed by your child/ren to support their learning. We hope that you and your family find Enoggera State School to be as enjoyable and rewarding as we do. If you have any further queries, please do not hesitate to contact administration, your child's classroom teacher or myself. Yours in education,

Jodie Watts
Principal
